- **316** images — every media file on the wiki, in place.
- **138** redirect titles, indexed in Appendix A.
- Each page heading is followed by its source revision id, last-edited date and the live URL.
- Cross-links between pages of the same part are clickable; links to pages kept in another part — or to a dropped translation — open the live wiki instead. Use the PDF bookmarks (the outline panel) to move between parts.
